2015

Campus Iberus strategy

Aggregation

Specialization

Agrifood and Nutrition
Energy
Technologies for Health
Cultural heritage

Internacionalization

EBRoS cross-border campus
Europe
International (*Asia, Latin-America*)

Campus Iberus' vision

- ✓ **Joint international position** in some specialization fields
- ✓ Jointly face **singular projects** for the four universities
- ✓ Optimize the **use of resources**

Adding together capabilities of the 4 universities

Specializing its activities in specific areas of knowledge where the 4 universities are stronger through the aggregation

Scaling-up local projects to the Iberus context

Operating through the Campus Iberus legal entity

Areas of activity

Teaching

Students

Research &
Innovation

Internationalization

Areas of activity

Teaching

Joint Master Degrees and Doctoral programmes

- Doctoral Programme in Heritage, Societies and Frontiers
- Doctoral Programme in Food Safety
- Master in Home Appliances Engineering

Harmonization in the Master and Doctoral offer

Iberus Doctoral School

Joint training activities

Iberus Doctoral days

Thesis in 3 minutes competition

Areas of activity

Students

Joint regulations for students (access, mobility...)

Full access for students to services in Iberus

Erasmus+ mobility Consortia

Talent capacitation Programme

Campus Iberus Employability

DEMOLA – Open Innovation

Areas of activity

Research & Innovation

Iberus Entrepreneurship Programme

- Iberus-CLH entrepreneurship prizes

DEMOLA – Open Innovation

- Students
- Companies and institutions
- Co-creation / Innovation
- Regional/Inter-regional/International

Areas of Activity

Internacionalization

EBRoS cross-border Campus

- Mobility, training and research activities

Europe

- Joint projects
- Mobility programmes

Latin America

- Colombia (Training, capacitation....)
- Iberus Delegation in Latin America

Asia

- Agreement with universities in China
- Mobility, Training, Research

Specific Actions

Iberus Interuniversity Clusters

Iberus International Fellowship Programme

Iberus International Mobility Programmes

Iberus interuniversity Clusters

Action Plan

**Priorization
(projects/actions)**

**Call for the creation
of Clusters**

Evaluation

**Start up of Clusters
activity**

Agrifood Clusters

**Processing technologies in
Food quality, security and
nutritional value**

**Health Claim on the
polyphenols of the olive oil**

**Genetics and agronomy
through chemical and food
products to human
nutrition and health**

**Bioactive compounds from
basic food products -
microbiota and intestinal
pathophysiology**

Energy Clusters

**Thermic Energy Storage
as a management and
energy use tool**

**Joint Action Plan on
Energy Efficiency for
Smart Cities**

**Observation and
monitoring with chemical
micro and nanosensors**

**Social, economic and
environmental monitoring
of the use of renewable
energies in industry**

Iberus Clusters

95 Researchers

17 Companies

13 Research centres- universities

5 Regional/local authority

Iberus International Fellowship Programme

Graduates in the Campus Iberus universities

Secondments (3/4 months) in international institutions/companies

Partnership with international institutions

Funded by Campus Iberus

Iberus International Mobility Programmes

Mobility of researchers from a to Campus Iberus

Pre/post doctoral degree

Short secondments (15/30 days)

Partnership with international universities/clusters

Co-funded by Campus Iberus

Coming together is a beginning. Keeping together is progress. Working together is success (Henry Ford)
